

JHAMES ANDREW MACABATA

SOFTWARE ENGINEER

0920 786 6094 | jam.macabata@outlook.com | www.jhamesandrewmacabata.space

PROFESSIONAL EXPERIENCE

Software Developer Intern/ Team Lead, 8Con Academy May 2025 - Present

- Developed and maintained web-based systems and automation tools supporting business operations
- Built automated lead capture pipeline — website form submissions are routed and logged to a CRM in real time
- Led frontend and backend development tasks across multiple web projects
- Produced technical documentation including system flowcharts, code comments, and deployment procedures
- Collaborated with team members and stakeholders to deliver scalable solutions

PROJECTS

8Con Edge, Lead Developer 8conedge.com

React 19 · Express 5 · Flask · MySQL · Docker

- Full-stack forex trading decision support system used by 20–50 students.
- ML-powered pair-ranking replaced a fully manual process — reduced currency analysis time from hours to minutes, surfacing strength/weakness scores to aid trade bias decisions.
- Features role-based and tier-based access control.

JobTrail, Developer jobtrail-0gza.onrender.com

FastAPI · PostgreSQL · HTMX · Tailwind · Supabase Auth · GitHub Actions

- Job application tracker with magic-link auth, inline editing, status filtering, and live dashboard. Includes 10 pytest tests covering CRUD, auth guards, and user isolation. Full CI/CD pipeline on every push.

MiniLink, Developer minilink-production.up.railway.app

FastAPI · PostgreSQL · Redis · Docker · Railway · GitHub Actions

- Self-hosted URL shortener with redirect analytics. Multi-stage Docker build (~150MB image), Redis read-through cache with 24h TTL, full CI/CD pipeline — lint → test → build → push to GHCR → Railway autodeploy.

8Con Academy Website, Team Lead Developer 8conacademy.com

JavaScript · HTML5 · CSS3 · SMTP

- Full-stack web platform with SMTP-based transactional email, form validation, and database-connected lead capture workflows.

J.Kloting Website, Developer jkloting.store

HTML5 · CSS3 · JavaScript · AJAX · Next.js · TypeScript · Supabase

- Client-facing e-commerce site with dynamic form handling and a separate admin dashboard built in Next.js with Supabase.

EDUCATION

Bachelor of Science in Computer Science August 2022 - May 2026

Pambayang Dalubhasaan ng Marilao

- 2026 Computer Science Best Thesis Award

SKILLS

Languages: Python · JavaScript · TypeScript · SQL · Java · PHP

Backend: FastAPI · Node.js · Express 5 · Flask

Frontend: React 19 · HTMX · Tailwind CSS · HTML5/CSS3

Databases: PostgreSQL · MySQL · Redis · DuckDB

DevOps: Docker · GitHub Actions · Railway · Render · Vercel

Tools: Git · RESTful API design · RBAC · Magic-link Auth
